suburban home of Mr. Joseph Brynn, which was destroyed by fire early Sun day morning, will begin almost immed

It is the purpose of Mr. Bryan to erect the new building upon the old site in the large park on Brook Road, but in the reconstruction several important changes will be made in the dwelling itself. When complete the new Laburnum will be somewhat larger than the old and a colonial front will have considerably altered the appearance of the exterior. The parlors will be located where the fibrary stood before and will be smaller, and a larger library will take up the space formerly used for the parlors and some additional room. This will make unnecessary the erection of a separate library building, for which Mr. Bryan had altered to the control of the man the residence was burned. The dinins room will be larger. In all other respects the arrangement of the new home will be similar to that of the old. The building will be of brick, three stories high.

Many Messages of Sympathy.

Hundreds of friends continue to express their sympathy for the family in the loss of the beautiful country home, and during yesterday Mr. Bryan received mainy letters and telegrams of regret from all sections. The fact that the library was saved from the flames was frequently referred to. The impression that the large collection of rare books relating to Virginia subjects, recently secured by Mr. Bryan from Mr. Robert. Lee Traylor, was in the house at the time of the fire is a mistake. These books are gafe in Richmond where they were being kept until the library building should have been completed.

Nothing positive is known yet as to the origin of the fire, though the blaze is supposed to have been caused by a lisplaced extension wire. Speaking of this matter yesterday Mr. Bryan sald that if the fire did occur in this way it was certainly through no fault of the Virginia Passenser and Power Company, the had absolutely no criticism of the would have his new home lighted with rectricity and wired by the same consern that did the work in the old building.

Colder To-day, and Clear.

A snow storm passed over Richmond last night, following a drizzling rajo that had fallen during the afternoon. The temperature dropped as night Ni approached, and the early evening was exceedingly disagreeable to pedestrians. The snow for a time melted as rapidly as it fell, filling the sidewalks with a thin coating of slush. Later, while it grew colder still, the flakes began to slick, and by midmin the city was covited with white. The storm passed quickly, and the prospect to-day is for clear weather, much colder.

Mr. Shipley said:

"The Provident Life and Trust Company paid last year to Marlin E. Olmistead, one of the leaders of the Harrisburg bar and a United States Congressman, 37,500 for using his influence to have two unfavorable insurance bills buried in committees. It also has paid for a number of years, a salary of 2,000 outside of his regular commissions, to William M. Scott, one of its agents, for staying in session, looking out for bills that may affect the company and having them killed."

Claim Names of Grand Jurors Who Returney Indictment Improperly Prepared.

SAVANNAH, GA., January 8.-Prelimlnary to the trial of Benjamin D. Greene, John F. Gaynor, William Gaynor and Edzling and receiving some two million doilars that belonged to the United States, which will be called in the Federal Court to-morrow morning, the defense this afternoon filed a plea in abatement to the two indictments that were found last and that he had already made his first November, and served Special Assistant United States Attorney-General Marion Erwin with notice to produce the orig-inal of a telegram Greene and John F.

Erwin with notice to produce the original of a telegram Greene and John F. Gaynor claim they sent to Attorney-General Knox while they were in Quebec early in 1902.

The plea in abatement is based upon the contention that the grand jury that found the last bills of indictment against Greene and the Gaynors had no legal existence for several reasons, which are enumerated. The defendants say that the indictments should be quashed. One of the contentions is that the members of the grand jury were drawn from the southwestern division of the southern district of Georgia, instead of the eastern division. Sections of the Federal statutes are quoted to support the contention.

Another contention is that the names of the grand jurors who returned the indictments were improperly prepared; that Judge Speer apointed a special jury commission to prepare a list of jurors for this case, and that he had no authority to make such special appointments.

The following is a core of the telegram

ments.
